Topfloor cast iron stall grid

Topfloor grids

- High-quality cast iron (GGG40)
- Acid and corrosion resistant
- High breaking strength
- Strong, stable construction (self-supporting to 2000 mm)
- Fitted with sturdy support strips
- Unique triangular rod shape, which ensures a perfect manure passage, and which is self-cleaning
- Animal-friendly and comfortable
- Large freedom of movement thanks to safe anti-slip surface
- Easy, quick and efficient to install
- Long life span
- Interesting and competitively priced

Strong, solid, hard-wearing

Topfloor grids are suitable for use in stalls used for fattening pigs and pregnant sows. These solid stall grids are produced from a high-quality quality cast iron (GGG40) and are, therefore, very strong and durable. The grids are acid and corrosion-resistant and have a high breaking strength.

Optimal manure passage

The unique triangular rod shape is remarkable and - in combination with the large slot aperture of 12.5 mm - ensures an optimal manure passage. The stall grids are fitted with sturdy support strips as standard, thus resulting in a stable, strong construction.

Maximum security

Topfloor stall grids are fully self-supporting (up to 2000 mm) and can therefore be laid efficiently, quickly and easily. They are produced with a slightly rough surface, which creates a perfect non-slip profile. Therefore, maximum security for you and your animals is ensured.

These strong stall grids are available in a variety of versions and sizes. As an additional guarantee, they are checked extensively for quality and unevenness in order to ensure optimal animal welfare as standard.

Technical details

Type	Dimensions in mm	Weight each in kg
TF 600*	600 x 600 *	18,0
TF 700	700 x 400	14,3
TF 900	900 x 400	16,4
TF 1000	1000 x 400	18,2
TF 1100	1100 x 400	20,9
TF 1150	1150 x 400	21,8
TF 1200	1200 x 400	22,8
TF 1250	1250 x 400	23,1
TF 1300	1300 x 400	24,7
TF 1400	1400 x 400	26,6
TF 1500	1500 x 400	28,0
TF 1600	1600 x 400	30,4
TF 1700	1700 x 400	32,3
TF 1800	1800 x 400	34,4
TF 2000	2000 x 400	36,2

Bar width/slot aperture standard 12,5 mm

(except for TF600; has bar width and slot aperture of 10 mm).

* this grid is as only 600 mm wide.
